Winston Hamfest June 5

Winston-Salem Hamfest! June 5

Back the same as last year! But hopefully without the rain! We will be in the Home and Garden Building again (for the second year). This gives us an inside hamfest with air conditioning and all that, and it also gives us the chance to hold an outside hamfest. Last year this was a real winner since it rained the entire weekend. The inside hamfest was a real hit with all attendees. The vendors left very happy, the attendees left happy, and those who work on the hamfest left happy - with maybe the exception of Carl, N4PAA and his parking crew who were outside in the rain! There was one vendor set up outside. OK - he had it to himself! It's hard to call but the weather should be better this year. It is one ham radio event which has proven year-in and year-out that it is not to be missed!

For FARC members and anyone else who wants to help out there will be a meeting Friday night, June 4 at 7:00 PM the night before the Hamfest to tie up any loose ends. If you want to help please show up then. Yes, because it is a fund-raiser that the club absolutely depends on to help maintain all that we do, this Newsletter, the repeaters, and the RED Cross station among other things, we all will pay to enter the Hamfest. Even those of us slinging the delicious breakfast biscuits, hot dogs and BBQ's you've come to expect. But there will a voucher for a free drink given to those who show up at the Friday night meeting. Miss it and you miss out. That is just a little bribe to help get you there. We have the mechanics of holding the Hamfest down to a science so that it more-or-less runs itself with a few

people who have always jumped in to fill certain jobs. But there is always room for more, and if there's something you'd like to help with, please just jump in, we don't bite. Friday we need a headcount as much as anything, but there will be a few last minute details that may need someone to follow up. So come out and join us Friday night!

Dale Merisch, WB9SZZ, our Technical Chairman, makes a minor repeater adjustment at the 2002 FARC Hamfest.

Field Day- New Location - Again!

Field Day will be held at Hobby Park on West Clemmonsville Rd, this year. The last several years were at Linebach Park but someone beat us to the reservation this year. Never mind. Yes, you may have heard something about Miller Park but that's changed now. The rest rooms were too far away at Miller Park and there were other complications. Hobby Park has rest rooms right at the shelter and nice open spaces.

There will be hot dogs and hamburgers and drinks and the usual fare at the 6:00 PM family picnic for all members. Bring something if you like, but you don't have to. Everything will be provided by the club - but a donation jar will be available to ease your conscience if that's necessary.

Plans are a little fuzzy right now, but I'll go out on a limb and repeat last years' plans. We will meet for breakfast at Jimmy the Greeks at 8:00 AM Saturday morning, June 25 where we will hob-nob with our fellow hams over dutch breakfast until around 9 AM or so. Then at 9 AM meet at the Red Cross to pack up stuff and then head over to Hobby Park.

From the time we arrive at Hobby Park until 2 PM is set up time. At 2:00 PM local Field Day starts and we should be on the air. The only big item we have to pick up is the generator at the Red Cross, we now have almost all FD stuff packed in water resistant boxes and ready to go (just in case there is a real emergency!). The most involved thing will be the cook out prep for 6 PM and that's taken care of. So come out, operate a little, or not. But bring your family and friends and eat with us. We will be operating until 2 PM Sunday so there'll be plenty of opportunity to get on the air.

Jeff Stafford, AC4YN, explains to a young visitor about Field Day. Each year we have a number of visitors who happen by and ask about what we're doing. This year we will be set up at Hobby Park on West Clemmonsville Road.

License Exams

The Forsyth Amateur Radio Club continues to offer license exam sessions on the FIRST Saturday of EVERY month (includes holidays!) at the American Red Cross Chapter House, 690 Coliseum Drive, in Winston Salem. This is across the parking lot from the Arts Council Theater ("Little Theater"). Examinees need: Photo ID, ORIGINAL and COPY of all documents (License, CSCEs, anything else submitted for exam credit), Social Security Number, and fee of \$12. Registration begins at 8:30 AM. Exams begin at 9:00. Please arrive before 9:00 because if you aren't there we might leave!

Club Meeting, Monday, June 14, 2004

We will meet, as usual, on the 2nd Monday of the month at 690 Coliseum Drive in the Red Cross Building at 7:30 PM sharp in Room 09, but come early, say, 7:00-ish, to "hob-nob" with your fellow hams. The program will be a recap of the Hamfest and planning for Field Day.

Dayton Hamfest

FARC was well represented at the Dayton Hamfest this year. Just in case you don't know, Dayton is THE hamfest. It is where the manufacturers all show their new radios and whatnot. It is probably the best attended ham radio event in the world. Yes, attendance may have been down a little this year. Yes, it rained the whole time. But there was still plenty going on outside in the 4,268 outdoor fleamarket spaces. Yes, 4,268. So some of them weren't filled due to the rain or what not. And yes that is reduced from some previous years - but it still is an event that can't be fully seen in THREE days! And then there was the 657 inside booths filled with the Who's Who of ham radio manufacturers. Yes, a few booths weren't filled, but it's still the biggest Ham Radio event around. I went with the usual suspects, Henry Heidtmann, W2DZO; Robert, KG4NEP; Don Donadio,

Henry, W2DZO (far right), stands next to Rick Grubs and Rick Batte at Dayton.

I said "Don't touch that!"

Forsyth Amateur Radio Club, Inc is a non-profit (IRS 501(c)3) North Carolina corporation for the promotion of Amateur Radio, and for the education and training of hams and the general public primarily in Forsyth County, North Carolina.

FARC was originally incorporated as the Winston-Salem Radio Club on December 31, 1930 and has been in operation ever since. We currently maintain a state-of-the-art ham station in the basement of the Red Cross, 690 Coliseum Dr., Winston-Salem, NC and also maintain two 2-meter repeaters, 146.64 (100 Hz tone) and 145.47 (100 Hz tone).

FARC has a general membership meeting with a program on the 2nd Monday of every month at the Red Cross building, 690 Coliseum Drive in Winston-Salem. The club conducts its main business meeting (sometimes inaccurately and wrongly called the Board Meeting) on the 3rd Monday generally at the same location. This is where most of the club's business is conducted and all attending members have a vote. All club members are strongly encouraged to attend the business meeting. For more information about FARC mail us at FARC, Inc., PO Box 11361, Winston-Salem, NC, 27116; call 336-723-7388; or visit our web site at www.w4nc.com. Club email is to w4nc@triad.rr.com.

Officers for 2004 are:

President: Tom Gallagher, N4IOZ
n4ioz@triad.rr.com

Vice-President: Don Edwards, WS4NC
ws4nc@arrl.net

Secretary: Dan O'Leary, KG4ECI
kg4eci@webtv.net

Treasurer: Don Donadio, KT4KV
kt4kv@bellsouth.net

Newsletter Editor: Don Edwards, WS4NC
ws4nc@arrl.net

If you would like to help support the newsletter with an ad, please contact Don Edwards (email: wb4kqn@triad.rr.com). Ad deadlines are 7 days before the end of the month. Rates are \$50 for 12 months. Cheap!

We trade newsletters with other clubs, and many local clubs are on our mailing list. If your club has a newsletter and would like to trade please send us a copy.

KT4KV; Tom Gallagher, N4IOZ; John Kippe, N0KTY; Woody, KF4PLQ; and Melissa, W4RXG (whose call I can't EVER seem to get right in the Newsletter - sorry Melissa). While there we ran into some other FARC members: Rick Batté, and Rick Grubs. Plus maybe a few others I can't remember right now. It was a great trip. I highly recommend it for all hams to go at some time, it is ham radio's Mecca. If you can't find it at Dayton, you just don't need it.

2004 NORTH CAROLINA QSO PARTY

Sponsored by the Forsyth Amateur Radio Club, Inc.
(sub-title: "Surprise? Surprise!")

Strange title, but the 2004 North Carolina QSO Party is deserving of such a curious description. In one sense, it was NO surprise that half of our category winners were repeat victories from last year. There was NO surprise that the weather tried to wreak havoc on our event, and it was NO surprise that we had several surprises pop up! Confused? Read on!

This year we made a couple changes to the contest, as per your recommendations. We added a QRP category and deleted 2M and 6M QSOs. We continue to stress the importance of HF communication on the bands. Our geographic position on the east coast forces the NC ham to understand how to communicate with others in and out of NC at any given time, especially in times of a weather crisis. These changes were published on the website well in advance of the contest so they should not have been a surprise to anyone. A couple operators sent in QSO's on 160 meters, when the 160 Q's were dropped from our competition last year. There is a major 160 contest on the same weekend as the NCQP and so we do this to prevent any confusion between the events.

Other surprises include John N0KTY, an FARC member, operating from one of only 4 land based 4 county corners in the state. John used GPS to pinpoint the actual 4 corners of Rockingham, Forsyth, Guilford and Stokes counties and operated with the antenna and radials on that exact location. He had a ball, which is the point of this thing, right? Hey, how about the annual battle between mobile ops AA4S and NY4N? No surprise there- they logged over 1300 q's between them! Take a look at the soapboxes and you'll see how much out of state operators appreciate their major efforts. Ron and Jeff, the FARC hats are off to you as well.

Another surprise was that we still missed the county activation sweep of 100- this time, we had only 3 counties that no one operated to or from. And sadly, we went have to worry about running into a major traffic jam down near the Rockingham Speedway as I understand NASCAR has pulled that race from the track. I will never forget sitting in stand still traffic for 2 hours while operating mobile the past couple years.

INSTATE CATEGORIES

In the Single operator category, Jim K4MA from Wake County (who, by the way, has been known to dabble in the occasional contest) entered his first NCQP and soundly took the Single Op plaque. Second place was fellow Wake county op Steve WA3TMR using the 1X1 N4C. Third place was Gary W2CS/4. Here's another surprise- the top 2 ops were from Wake County, with W2CS being from right next door in Chatham.

In the Club category, it was the Randolph ARC taking the plaque with the Pitt County ARES/Brightleaf ARC group NC4PC taking 2nd place. 3rd place goes to the Tri-County ARC from Guilford County. Special thanks goes to the N14BK group for activating the USS North Carolina in Wilmington. What a pileup that was! *Continued at the top of Page 4*

2004 NORTH CAROLINA QSO PARTY RESULTS

(Bold calls are plaque winners, certificates will be awarded to 1st, 2nd and 3rd place winners in each State/Province and DXCC country.)

NC QSO Party, Continued from Page 2

The mobile category had 11 stations hit the road for the this year's contest, and the results were amazing. Top honors go to Ron, AA4S who made an amazing 680 q's operating mobile- Jeff NY4N was a close second with 653 q's This is a switch from last year, where Jeff took top honors. Coming in 3rd was the KA4NWS team of Sally and Kevin. Our mobiles make this event one of most exciting QSO parties around.

We added a QRP category this year, but no one from in-state submitted a QRP log, so we'll try again next year.

OUT OF STATE CATEGORIES

Surprise, surprise? Does Keith Pederson WA3HAE have ANY wall space left? He'd better, because he has repeated his win in the Out of State Single operator category. He has been active in our party for several years now, and is always there to give a frequency to a mobile station or take the time to explain the rules to someone. Nice work, Keith! Second place goes to Norm VE3NBJ who edged out Jim K9WA by only hundreds of points.

The Cornerstone ARC in Florida again picks up the out of state Club plaque, while the little taken advantage of Mobile-Out of state plaque goes to Kyle WA4PGM from Virginia.

Our new Single Op- QRP category yielded 8 entries with Doug VA3DF taking the top spot from Ontario. Second place goes to Todd N9NE with Paul W8TM taking the 3rd place certificate. Congrats to all the QRP operators.!

FARC COMPETITION

John, N0KTY picks up the FARC club participation plaque. He worked from a 4 county line (mentioned earlier) which was confirmed using GPS. Tom, N4IOZ ran several mountain counties, while Raja KB6MTH and Don WS4NC worked WS4NC/M through central NC. We had close to a dozen operators working the bonus stations W4NC and W4WS- my thanks goes out to them for giving out the extra points.

RULES FOR 2005

As always , we invite your thoughts on making our party even better. It seems most people like the 10 hour format. The clubs are really making this into a social event- way to go out there. We'll talk about expanding club operations to include multi- transmitter operation. There are pros and cons to that- we'll see what everyone thinks.

A FINALNOTE

As most of you all know, we have recently lost 2 very special members of the contesting community. Jim White, K4OJ and Bill Fisher, W4AN both made huge contributions to contesting, including QSO parties. There have been many discussions about their efforts on the varied reflectors, so I won't list their accomplishments here. I will ask that you keep their families in your thoughts and strive to be the class operators that Jim and Bill were.

Certificates and plaques have already been mailed to the winners. Thanks again to all participants in this year's event and we'll see you in 2005!

73,
Henry Heidtmann, W2DZO
2004 NC QSO Party Chairman

Upcoming Hamfests

In case you still need more hamfest experience after the Winston-Salem Hamfest on June 5 there is:

June 6 - Manassas, Va. Hamfest - Prince William Fairgrounds, 10624 Dumfries Road, Manassas, VA 20112 - (Route 234), 7am until 3pm - Talk-in: 146.97-

The Newsletter Hamfest:

I guess everybody has everything they want and have nothing for sale since I have no items this month.

And in other news . . .**Congratulations to 3 FARC Members!**

Any birthday that ends in a "0" is special. We had two club members who had a Big "0" birthday recently. Tim King, AG4RZ, recently celebrated his big "3-0" at Tanglewood May 15. How dare he plan his birthday on Dayton Hamfest weekend! The nerve! Anyway congrats to Tim.

Another FARC member also celebrated a Big "0" birthday in May. His first big "0"! Henry Heidtmann, IV, KI4DDF, had his big "1-0" birthday in May. Congratulations Henry! It was a special accomplishment to have your ham license before you turned 10!

And recently Bill Fields, W4DIA, turned 90! Which brings us to:

Thank you, Bill, W4DIA

Bill Fields, W4DIA, has moved to Heritage Retirement on Forest Gate drive. He recently turned 90 years young. Bill has graciously made a large donation of equipment to FARC. There is a beautiful Kenwood TS-440, an awesome Drake TR-4 with the remote VFO and the MS-4 speaker-power supply, and a Hammerlund HQ-180 and speaker. Thanks you Bill and congratulations on your birthday.

A special Thank-you to Van Key, KC4WSK

Thanks to House Chairman, Van Key, for keeping us fat and sassy at club meetings. Van really outdoes himself every meeting by bringing us such great goodies every month. Just look at last months spread! There were pimento-cheese and chicken-salad sandwiches, nuts, snacks and lots of drinks! Thanks Van!

ARES

Just a reminder, please join us on the Forsyth County Ares Net Thursday evenings at 8:30 p.m. on the W4NC repeater, frequency 145.47 Mhz.

73, Dave KE4JHJ

District Emergency Coordinator

FCC Extends BPL Reply Comments Filing Deadline

NEWINGTON, CT, May 27, 2004--The FCC has extended the deadline to file reply comments in its broadband over power line (BPL) proceeding, ET Docket 04-37, from Tuesday, June 1, to Tuesday, June 22. The Commission released its BPL [Notice of Proposed Rule Making \(NPRM\)](#) February 23, and the initial comment deadline passed May 3. The FCC acted on a request from the [National Antenna Consortium](#) and the [Amherst Alliance](#) (NAC/Amherst) for a much longer filing deadline extension. The NAC/Amherst petition cited the anticipated release of the National Telecommunications and Information Administration (NTIA) Phase 2 BPL study in making its request for a filing delay. The organizations said the FCC was not allowing stakeholders adequate time to prepare comments to address the two-part NTIA report on BPL interference. The FCC said the NTIA has indicated that it will submit comments and a technical appendix in the BPL proceeding this week. Those submissions are expected to contain key findings of the Phase 2 report, due to be released later this year.

"We believe that three weeks should provide ample time for review and analysis of this information, and accordingly grant the extension for that period," said FCC Office of Engineering and Technology Chief Edmond J. Thomas, who signed the [Order Granting Extension of Time](#) released May 27. NAC/Amherst had sought to have the FCC postpone the filing comment deadline until either September 1 or two months after the public release of the NTIA's Phase 2 study--whichever was later. The FCC said the groups "presented no specific justification for such a longer time, nor is one evident to us." The FCC said the additional three weeks should be "ample time" to respond to the anticipated NTIA submission "as long as it is filed reasonably close to the anticipated date of May 28.

Noting that its Part 15 rules already permit Access BPL systems and that its BPL [NPRM](#) places additional requirements on BPL systems over and above what Part 15 already requires, the FCC said to further delay the proceeding would diminish the Commission's ability to protect licensed users now occupying the HF spectrum. In addition, the FCC said, a further extension "would needlessly increase regulatory uncertainty about this technology's promise to deliver broadband services" to US consumers.

The FCC *Order* turned down a request that the FCC reissue in a substantially more detailed form the provisions of its proposed BPL rules concerning interference prevention and mitigation and the enforcement of standards. The FCC said that NAC/Amherst provided no compelling reason nor did it suggest how the FCC's proposed rules were insufficiently described.

The FCC does not routinely grant such time extensions, and it denied earlier petitions, including filings from the ARRL and NAC/Amherst, to extend the initial comment filing deadline, which was May 3. The League and others said commenters needed more time to digest the NTIA's Part 1 BPL [study](#), released April 27.

Earlier this year, FCC Chairman Michael K. Powell turned down a request by US Rep Greg Walden, W7EQI, to delay further action on the BPL proceeding until the NTIA study's had been released and stakeholders had had a chance to evaluate it before commenting.

Connecticut Attorney Don Schellhardt is a co-founder of The Amherst Alliance and served as its first national coordinator. He's the NAC's vice president for government relations and membership development and an associate ARRL member.

For more information on BPL, visit the ["Broadband Over Power Line \(BPL\) and Amateur Radio" page](#) on the ARRL Web site.

Moment of Zen

Ham(sters) know how to have fun!

**12 Year Old Extra
KI4BOQ from Kentucky.**

Kentucky's youngest amateur also youngest Extra (Jun 2, 2004) -- ARRL Kentucky Section Manager John Meyers, NB4K, says League member Christopher Lee Castle, KI4BOQ, of West Van Lear, Kentucky, not only is the youngest radio amateur in the Blue Grass State, he's its youngest Amateur Extra class licensee. Castle got his Technician ticket last July at age 11. After upgrading to General in January, he passed the Extra examination on St Valentine's Day--less than 10 days before his 12th birthday.

Yes, I know it's tasteless. The "ad" to the right. "There, but for the grace of God" and all that. But that's really my point. Like a lot of things there's a story behind this. But I'm not going to tell the story. Just to protect the innocent, and especially the guilty. It happened on the way to Dayton. Let's just say you should remember that other people are listening when you push the mic button. Even, or perhaps I should say, *especially*, on 146.52 at low power.

I'm looking forward to seeing everyone at the Winston-Salem Hamfest this weekend. Don't forget the ARES net on Thursday nights. Summer is coming up and with it the June hurricane season. So it's time to get everything ready in case it's needed. But, of course, we all keep everything ready. Right?

For information to make it into the Newsletter, I need it a few days before the end of the month. Sometimes I can squeeze it in on the last day, depending on when the 2nd Monday falls. Email me at ws4nc@arrl.net with any submissions. Just plain text is all that's required, most formatting will be redone to match the Newsletter's form anyway. Pictures can be most any form, but jpg's are probably best. Pictures need to be of the highest resolution possible.

73, Don, WS4NC

FRANCHISE OPPORTUNITY

Colonel Hank's

**Start your very own
Colonel Hank's
Will Work For Food
Franchise!**

**Get 5 genuine cardboard signs,
2 magic markers,
and a collection of
award-winning sob stories
guaranteed to generate
large donations.**

The first 100 purchasers will also receive
a free crutch, in case someone actually
asks you to work!
