## Pfafftown Hamfest

### October 20 - This Saturday!!

**This Saturday!** The Pfafftown Swapfest is **This Saturday** at the West Central Community Center, 6130 Yadkinville Road, Pfafftown, NC. For those of you who didn't know Pfafftown is a small community just outside Winston-Salem. This is an indoor/outdoor event. Lots of prime tailgating space is available outside. Lots of room for tables and chairs inside. Please bring your own tables and chairs. We need club members there around 6am to help get ready. Inside tables open at 7 for sellers, public at 8. We begin closing around noon. \$5/person gets you on the grounds. \$10 for table space inside - but bring your own tables. Did I mention that it is **This Saturday**?

## BIG Simulated Emergency Test THIS WEEKEND

October 21 and 22. ARES will be a part of this and hams are needed. Also they need a lot of volunteers to play victim. *Continued on page 5*

## CQWW returns to the FARC shack!

This year the contesting group will work CQWW from the Red Cross. The Red Cross shack has been given a face lift and the kinks have been worked out at the station. If you have ever wanted to find out what all the contest excitement is about you need to visit. CQWW starts Friday night October 26 and runs through Sunday night at 8 PM. *Continued on page 4*

## New Technician Class Starting October 27

FARC in cooperation with Wake Forest University Amateur Radio Club will be holding a three Saturday course where you can learn everything you need to earn your Technician (entry level) FCC Amateur Radio License. Classes begin Saturday October 27th at 9 AM in Wingate Hall at Wake Forest University. Registration is required. Contact: Austin Tindal, KI4KNS 336-817-1562 or ki4kns-at-w4nc.org.

## New FARC Antenna Trailer

Courtesy of NCDOT and **James KE4DTX** who thought of FARC in time to save it from the scrap heap - FARC has a new (to us) tower trailer. In it's former life it was an electronic highway sign and has been decommissioned. We have had it sandblasted, primed, and painted Cat. yellow with black trim. It will soon sport several tower sections and antennas. It will be a resource for disasters and emergencies and will also get a good workout during Field Day and Contests.

The new FARC Antenna trailer. It will be unveiled at the Pfafftown Swapfest.

## Recent Club Programs

In September we were fortunate to have **Michelle Brock** from Forsyth County Emergency Management come and talk to us about Skywarn and also about the FCEM Office. It has been a while since we have had the full Skywarn training class at a Club meeting and plans are in the works to have that happen again probably at the January meeting..

October's club meeting was presented on VHF Contesting by **Bill Fisher W4GRW** from Charlotte gave us a very polished and enthusiastic coverage of VHF contesting. Bill's antennas generated a lot of interest so a plan is in the works for an FARC antenna building party for next year.

## Club Meeting, Monday November 12, 2007

We will meet, as usual, on the 2nd Monday of the month at 690 Coliseum Drive in the Red Cross Building at 7:30 PM sharp in Room 09, but come early, say, 7:00-ish, to "hob-nob" with your fellow hams. **This month is home-brew Show-&-Tell. Bring your goodies.**

**Forsyth Amateur Radio Club, Inc** is a non-profit (IRS 501(c)3) North Carolina corporation for the promotion of Amateur Radio, and for the education and training of hams and the general public primarily in Forsyth County, North Carolina.

FARC was originally incorporated as the Winston-Salem Radio Club on December 31, 1930 and has been in operation ever since. We currently maintain a state-of-the-art ham station in the basement of the Red Cross, 690 Coliseum Dr., Winston-Salem, NC and also maintain two 2-meter repeaters, 146.64 (100 Hz tone) and 145.47 (100 Hz tone).

FARC has a general membership meeting with a program on the 2nd Monday of every month at the Red Cross building, 690 Coliseum Drive in Winston-Salem. The club conducts its main business meeting (sometimes called the Board Meeting) on the 3rd Monday generally at the same location. This is where most of the club's business is conducted and all attending members have a vote. All club members are strongly encouraged to attend the business meeting. For more information about FARC mail us at FARC, Inc., PO Box 11361, Winston-Salem, NC, 27116; call 336-723-7388; or visit our web site at [www.w4nc.com](http://www.w4nc.com). ## CQWW returns to the FARC shack!

After 10 years of operating the CQWW SSB contest from downtown Winston-Salem and out at Robert's KG4NEP multi tower site, the contesting crew decided to do this year's event back in the club station. There were several reasons for this-

- Many thought that it would be fun to try it from a different venue, as our #2 finish in the USA last year represented sort of a "top out" in our category (there's a station in PA that we'll simply never beat due to geography issues).
- The FARC shack had become a bit worn down with old computers, and some of the antenna lines needing fixing. If we did CQWW from there this year we could give the shack a nice upgrade.
- Raja KB6MTH made a very generous donation to the club to purchase 2 new laptop computers and flat screen monitors which will make our Field Day operation easier and allows for quicker activation for disaster work.
- The club has had a slew of new members who have been interested in learning about contesting. We had talked about traveling to the mountain or beach for the contest, but since we have lots of folks wanting to try their hand at it, we figured doing it here would offer the most opportunity for everyone to see what HF contesting is like!
- This would give Robert a chance to shoot for a top 5 finish as a single operator, the ultimate category for the top contesters in the world.

So, mark your calendars for Friday, October 26-Sunday October 28 to stop by and see what all the fun is about. The contest starts at 8pm EST and goes for 48 hours. You can find more info at [www.cqww.com](http://www.cqww.com). We will have the upgraded shack ready for the October 8 meeting where we will have a brief discussion about the contest, the category we'll enter (probably Multi/Single) and logistics for that weekend. (We'll also be doing a license class that weekend, so it will give lots of folks a chance to learn about this aspect of the hobby.) If you have any questions, bring them to the meeting or email Henry W2DZO at [henry@summitschool.com](mailto:henry@summitschool.com). We'll need our regular guys there all weekend to help others, and we want to see lots of new faces! The shack will certainly be in tip top shape-lets give it a good workout.  
*Henry, W2DZO*

## Congratulations to Club Members

There were several club members with great news at the October Club meeting. There was so much going on Monday night I didn't get full details but these are my notes: Brad Rauschenberg K4BLR has just received his PhD. Way-to-go Brad. Michael Scriven KG4HTR has been promoted to Senior Bondsman. Michael left the after-meeting with an interesting quote "FARC members must be some good people. I've never had to arrest one of them." OoooKay, we'll take that as a compliment. Danny KI4TUX has a new job. Mary Anne who is working on getting her license soon spent 4 and one-half hours working stations from the Blue Ridge Parkway special event at Daughton Park. And in the, This is Getting Old Department, Robert and Henry working as V26H has been confirmed as Number 1 in the WORLD in the spring ARRL DX Contest.

## Melissa has Degenerated!

### It's official!

First she was a Wave. Then she was 'low'. Then a depression. Then a storm. So it's official - Melissa can be a tropical storm. Then a depression again. And finally... "degenerated". I'm only quoting the National Hurricane Center. Just for the record I'm not talking about Melissa W4RXG. Melissa (W4RXG, that is) has pointed out that storm names are repeated on a seven year basis. But I'm predicting that I will see a stormy Melissa before 2014. Most likely again in 2007, just after she reads this.

MONTHLY TROPICAL WEATHER SUMMARY, NWS TPC/NATIONAL HURRICANE CENTER MIAMI FL 800AM EDT MON OCT 1 2007

MELISSA FORMED FROM A TROPICAL WAVE THAT LEFT THE COAST OF AFRICA ON 26 SEPTEMBER. AN AREA OF LOW PRESSURE FORMED THE NEXT DAY IN ASSOCIATION WITH THE WAVE NEAR THE CAPE VERDE ISLANDS. THUNDERSTORM ACTIVITY WITH THE LOW ABRUPTLY INCREASED EARLY ON 28 SEPTEMBER...AND THE SYSTEM BECAME A TROPICAL DEPRESSION LATER THAT DAY ABOUT 120 MILES WEST-SOUTHWEST OF THE SOUTHERNMOST CAPE VERDE ISLANDS. THE DEPRESSION STRENGTHENED SLIGHTLY WHILE INCHING WESTWARD...AND IT BECAME A TROPICAL STORM EARLY ON 29 SEPTEMBER. AFTER REACHING ITS PEAK INTENSITY OF 45 MPH LATE THAT DAY...THE STORM WEAKENED WITHIN AN ENVIRONMENT OF INCREASING WESTERLY WIND SHEAR...WHILE MOVING A LITTLE FASTER TOWARD THE WEST-NORTHWEST. IT AGAIN BECAME A DEPRESSION EARLY ON 30 SEPTEMBER. THUNDERSTORM ACTIVITY THEN BECAME INTERMITTENT...AND LATER THAT DAY THE DEPRESSION **DEGENERATED** TO A REMNANT LOW ABOUT 550 MILES WEST OF THE CAPE VERDE ISLANDS.

## Hey, Fellow Daytonites---

I have reserved rooms- I reserved a room of 4 for Austin and his dad's group, and I got 2 rooms of 4, which can cut to 1 in the spring if we don't get enough. Our trip will be around \$200/person. We have 3 firm attendees so far.  
*Henry, W2DZO*

Apparently this is something that happens every 3 years as a mandate from the FAA/Homeland Security. It's on 03Nov2007. I'm sure that EM will get me more data. Don-Could you put this into the newsletter? [Yes.]
